# Opportunity In Concrete Pavement Technology Deployment

**2012 National CP Tech Center Technical  
Training for NC2 States**

# Workshop Background

The National Concrete Consortium offered technology transfer and technical training to NC<sup>2</sup> member states through the National Concrete Pavement Technology Center **(CP Tech Center)** using TTCC and CP Roadmap Pool funds & funds from Michigan Tech Transportation Institute **(MTTI)**.

# Training Opportunities

The curriculum that is available for 2012 is for a one-day training workshop or seminar on the following choices:

1. IMCP Manual, Integrated Materials and Construction Practices for Concrete Pavement: You may select specific subjects within the manual for emphasis if that is of interest.
2. Concrete Pavement Preservation Training
3. Design and Construction of Concrete Overlays
4. Roller Compacted Concrete
5. Concrete Pavement Surface Characteristics
6. Concrete Paving Mixture (COMPASS Software explanation)
7. Quality in Concrete Paving Process (Quality Assurance Training)
8. Early Age Cracking
9. Cement-Based Integrated Pavement Solutions
